IICRC Fire and Smoke Restoration Technician

April 9-10, 2008

This two-day course concentrates on technical procedures for the restoration of a fire and smoke damaged environment. Students will learn how to combine technical procedures with a practical approach to managing the job site and how that relates to pricing the job. This course includes: disaster categories, restoration alternatives, the fire cycle, chemicals, equipment, restoration safety, HAZMAT, structural restoration (ceilings, walls, fixtures, flooring, HVAC, unfinished areas, exteriors), contents restoration (fabric furnishings, hard furniture, window treatments, appliances, electronics, clothing, high-value items, kitchen contents, moving and storage), and chemicals, equipment, and procedures for structural deodorizing.

Register today for only \$359 per student (manual included), with discounts for multiple students from the same company. Special 15% discount to SCRT members. Lunches, snacks and drinks provided each day. Our training site also offers wi-fi Internet access for your convenience.

About the Instructor: Jeff Bishop

He has more than 36 years of cleaning and restoration industry experience, and an Institute of Inspection, Cleaning and Restoration Certification (IICRC) Certified Master Cleaner, Master Restoration Technician, and Certified Carpet, Vinyl, and Wood Laminate Inspector. Jeff is an IICRC Technical Advisor and Chairman of the IICRC Certification Board, and also serves on the advisory board of the Insurance Technical Training Institute, and as a Director of the International Society of Cleaning Technicians. Annually, Jeff teaches over 50 courses in 10 cleaning and restoration-related subjects. Since 1973, he has authored 13 books and produced seven video tapes on cleaning and restoration-related subjects. He serves as a consultant to fiber producers, carpet mills, insurance training schools and local, state and federal agencies and serves as an expert witness. He is fully knowledgeable in disaster restoration including hurricane, flood and fire damage; and has extensive knowledge in mold remediation and water restoration.
